

Welcome to the Southeast Study Update

Archer Lodge | Benson | Clayton | Four Oaks | Garner | Kenly | Micro | Pine Level | Selma | Smithfield | Wilson's Mills
Parts of Raleigh, Johnston County, and Wake County

PROJECT OVERVIEW

The Capital Area Metropolitan Planning Organization (CAMPO) is updating the 2017 Southeast Area Study (SEAS) to refresh its policies and practices and produce recommendations for land use and transportation. The study focuses on the evolving priorities and needs in parts of Wake and Johnston County. The SEAS Update will review the existing conditions of the study area and recommend regional improvements for future land use and development and multiple modes of transportation including roadways, bicycle, and pedestrian needs, transit, and even freight and rail considerations. The recommendations that come out of the SEAS Update will inform the Metropolitan Transportation Plan (MTP), a region-wide long-range transportation plan that is updated every four years.

WHAT IS AN AREA STUDY?

CAMPO conducts area studies to allow a deep dive into the local road network, multimodal plans, and opportunities in a smaller study area of the region.

PROCESS AND SCHEDULE

The SEAS Update planning process will occur over the span of 14 months, beginning in April 2022 and concluding with final plan adoption in June 2023. The planning process is structured around three main phases of public engagement as seen below:

STUDY AREA

HOW TO GET INVOLVED

The SEAS Update is a community-driven plan. The planning process is incomplete without the voices of key stakeholders and the public. Visit the project website to keep up-to-date on progress, check out upcoming engagement events, and join the mailing list to receive updates.
