

PROJECT OVERVIEW

The Capital Area Metropolitan Planning Organization (CAMPO) is updating the 2017 Southeast Area Study (SEAS) to refresh its recommendations for land use and transportation.

Critical Transportation Issues

WHAT WE HEARD FROM YOU

Last summer, as part of Phase I Engagement, we asked you about your vision for the SEAS Update and what transportation issues were most critical. The following came from your feedback.

Guiding Principles *(updated from 2017 SEAS)*

-  **LIVABILITY**
-  **TRAFFIC FLOW**
-  **SUSTAINABLE GROWTH**
-  **TRAVEL SAFETY**
-  **ACTIVE TRANSPORTATION**
-  **NETWORK CONNECTIVITY**
-  **ECONOMIC VITALITY**
-  **FREIGHT MOVEMENT**

Visit the project website to learn more about the project and read the full summary of Phase 1 Engagement.

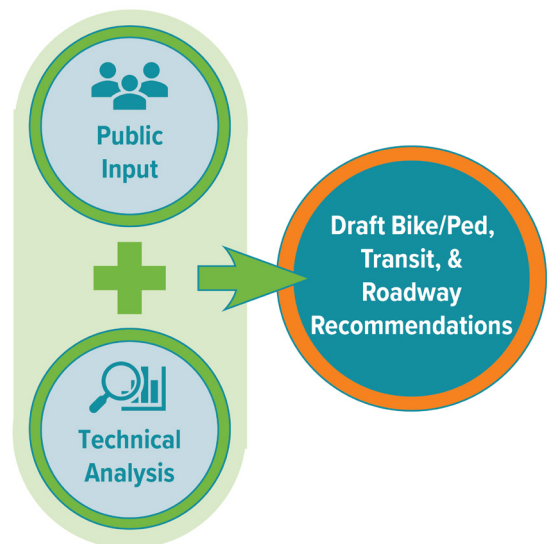

WHAT WE'VE DONE SINCE

Since Phase 1 Engagement, we've completed the technical analysis which, when combined with public input, helped the project team create draft bicycle and pedestrian, transit, and roadway recommendations.

WHAT WE NEED FROM YOU

We want to hear from you! We're asking for your feedback on our draft multimodal recommendations and input about your priorities.

Do the recommendations address the issues you care about? What's important to you?
